Subject: QM DB update
Date: Friday, September 27, 2013 11:13:18 AM

Jim, Mike,

Just an FYI. I have requested one final data update from Arcadis. Have been incontact w/ Gary, Chase, and Cynthia Draper (thanks for that contact, Jim). As Arcadis's database manager had added a field into their DB that indicates which data has already been provided to NOAA, the task should be minimal effort. Should be more expeditious than trying to parse it out of the DB that AMEC is establishing. Will let you know how it works out. Paul is providing me with an update of DEQ data as well. Let me know if you have any questions. Thanks. -Todd
